Well, it's that time again. Another show licenced, so another brief reprieve before I remove the files off the DDL. I'll give you guys the weekend to take care of getting what you need. Come Monday, Muteki Kanban Musume will no longer be available on this site.

That said, here's the latest two releases from Kyuuketsuki and Kiss. Yamato Nadeshiko Shichi Henge 06, still not sure how long this one plans to run, but it's definatly worth having at least one full 26 or so episode season.

And Black Blood Brothers 10. There's only another two episodes left of this one, it's kind of hard to believe it's almost over. I'm sure I'm not the only one who would like to see it keep going.

Downloads are available in the Downloads section as usual.

As a final note.....

Anyone happen to notice the banner changed? No? Well scroll up!

Anyway, I hope you like it. And if you happen to see Unok around online anywhre, be sure to thank him as he's the one who updated this for me.
