So, it's been a while since I updated things again. I blame the holidays, and some technical issues with the FTP. But that said, here's 4 new-ish releases. It's the latest from Busou and Yamato, and Black Blood Brothers 11.

It's almost the end of the month and there's only about 100GB of xfer left before we start to get near overages, so the latest new stuff will be available next month (Friday). Those being Kiba 33-35 and the finale of Black Blood Brothers. But for now enjoy this quad-release and catch up some on your favorite Kyuuketsuki shows (Kiss-Kyuu too).

Again, a final word:

That is all.
