Okay, so a few new files for you all to get.

First, we have the next episode of Kiba for you 45/51, yes they finally posted a final episode count. So there's only 6 more of this one. If you haven't been watching it yet, now would be as good a time as any.

Next we have two releases from Busou Renkin. The latest episode, 19, and a DVDrip of episode 01 in h264 format. (Details of it were posted on the Kyuuketsuki home page)

That's all for now, so head on over to the downloads page and grab these latest eps.
And don't forget about the forums.
