

Quick Update

Contributed by Warlock6669
Wednesday, 11 July 2007

So just a quick update to let everyone know that I am still here, just been busy with moving to Japan and getting things set up, I still don't have an internet connection to keep the DDL up to date like I used to, but I will be getting things back to a reasonable normal soon. So don't remove this site from your bookmarks yet.

And for the official homepage updates, those will be taken care of soon too.
